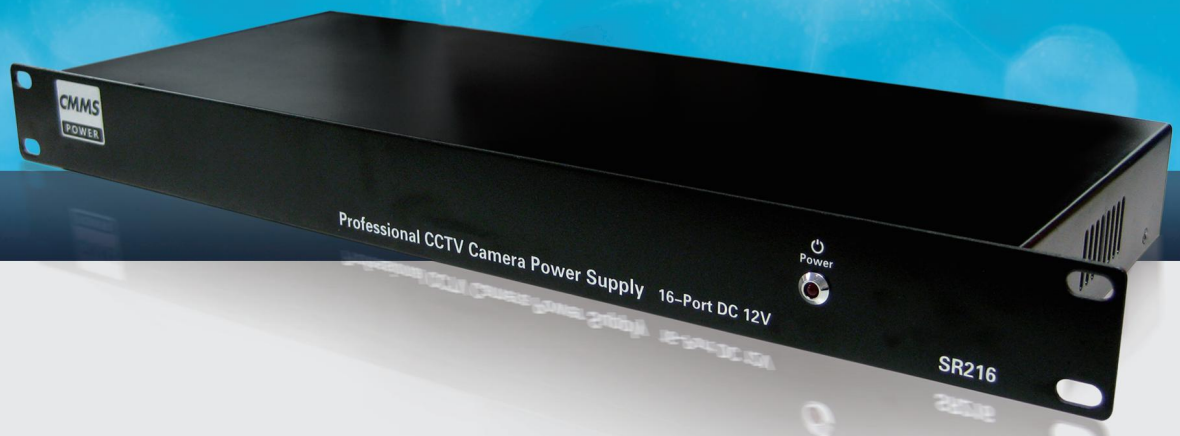
CMMS SR216S

16-Port Rack Mountable DC 12V Power Supply



Overview

CMMS SR216S is a 16 port DC 12V power supply in 19"standard 1U rack mounting cabinet. With the advantages of manageability, modularity and stability, SR216S is perfect to use in security control room as the power source for security equipment.

Features

- **Short Circuit Protection :** When short circuit condition occurs, individual PTC fuse will open the circuit. When the short circuit condition is cleared, PTC fuse will automatically back to close status.
- **High Voltage Protection :** When high voltage condition occurs, the surge protector will regulate the voltage to protect the connected device.
- **Over Current Protection :** When over current condition occurs, the power supply will automatically switch to self-protection mode. When the over current condition is cleared, power supply will switch back to normal mode.

Specifications

- **Input Voltage :** AC 176V - 264V
- **Input Frequency :** 50Hz - 60Hz
- **Output Voltage :** DC 12V
- **Output Port:** 16
- **Total Output Current :** 15A
- **Single Maximum Output Current :** 1.1A
- **Operating Temperature :** -10℃ - 45℃
- **Storage Temperature :** -40℃ - 55℃
- **Dimensions (L x W x H):** 1U 437 x 170 x 44 (mm)
- **Net Weight :** 2.63kg

Application

CCTV Camera, Access Control System, Door Lock etc.
